

# Sickness Shortcut!

**Fever:** 99.5 constitutes a fever for school.

Please keep your student home for **72 hours after** fever subsides without medication.

**Stomach issues:** vomiting/diarrhea-please keep your student home **for 48 hours after** vomiting or diarrhea subsides without medication.

If you have a student that is ill, or anyone in your home is ill, **please keep all students home** to make sure they do not show the same symptoms, we recommend at least taking 1 day from school.

THANK YOU for helping keep ALL students healthy.
